Through the commitment of The Help Them To Hope board and the hundreds of local supporters who contributed to the annual campaign, the value of change driven by communities is evident. The generosity and compassion of hundreds will impact tens of thousands throughout Lake County. We thank you for this gift, and one of the greatest gifts our youth can receive, that of hope and expanding possibilities.

In the past 2 weeks alone, your donations have helped a veteran and his family with rental assistance, a 17-yr-old play Lacrosse on the school team, a 12-yr-old special-education student play on a soccer team, a 17-yr-old pay the fees for his GED, 8 students attend a Skills USA leadership program, a 13-yr-old who was being bullied due to her clothing was provided new school uniforms that fit properly, 6 infants will have safe car seats, 4 students will receive the eyeglasses they were doing without, as well as additional rent & utilities assistance, counseling, and many other forms of assistance.

Poverty is a complicated issue but offering a youth the chance to take part in a sport or after school activity, attend a summer camp, play an instrument, attend a Lake County Technology Campus educational program, or have a pair of eyeglasses so they can see properly, is not. For the past 20 years, Mothers Trust Foundation has worked together with the schools, social service agencies, healthcare providers and other professionals to identify those children who are a step away from missing an opportunity to improve their path toward a better tomorrow.

Thank you for supporting these opportunities. Leading by example, you are mentoring our youth, showing them how to care for one another, pay it forward and contribute to the legacy of those who have provided a better way of life.

With Gratitude,
Susan Suhling
